wearing costumes or masks. Parents will receive information about their child's classroom party.

Homework Tips!

Setting a regular time to do homework and designating a specific place for doing homework helps keep your student well-focused on his or her studies. A flat surface, good lighting, school supplies (pens, pencils, paper, scissors, glue, eraser, ruler, etc.). Try not to work more than thirty (30) minutes per night.

Morning Procedure

Our school year is now in full swing. We would like for our students to exercise some independence. The children walk to their classroom many times each day and we are confident in their ability to do so. Please drop students off out front or in the lobby, allow them to sit in the cafeteria and walk to their classroom on their own in the mornings. We would like for children to check and hang up their backpacks and follow morning classroom procedures without help or guidance from parents. This builds confidence and responsibility.
